U.S. Patent and Trademark Office PTOL-37 (Rev. 08-06) Application/Control Number: 10/736,315

Art Unit: 2617

## **DETAILED ACTION**

## Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/26/2007 has been entered.

## **REASONS FOR ALLOWANCE**

Claims 1, 3, 5-7, 9, 11-13, 15, 17 & 18 are allowed. The following is an examiner's statement of reasons for allowance: The application is allowable for the reasons set forth on Pages 7-13 of the Applicant's response filed on 06/26/2007.

As noted therein, the claimed invention requires inter alia

Sending dual tone multi-frequency signal representing execution information as claimed in Claims 1, 7 & 13 to the test system over the voice link in combination with other limitations as claimed in Claims 1, 7 & 13 for the system to verify software program operations during execution of a voice response system.

The closest prior art Williams teaches claimed establishing a voice link step, claimed executing operational software programs step and claimed performing step.

The prior art Williams does not explicitly disclose sending dual tone multi-frequency

Art Unit: 2617

signal representing execution information as claimed in Claims 1, 7 & 13 to the test system over the voice link for the system to verify software program operations during execution of a voice response system as claimed.

The closest prior art Neary discloses sending a prompt signal to the test system over the voice link the prompt signal comprising utterance preceded by DTMF signals. The prior art Neary does not teach the claimed invention as stated above in combination with other limitations in the claims 1, 7 & 13 comprising claimed execution inofrmation representing in DTMF signals.

The combination of other cited prior art references do not teach or suggest sending dual tone multi-frequency signal representing execution information as claimed in Claims 1, 7 & 13 to the test system over the voice link in combination with other limitations as claimed in Claims 1, 7 & 13 for the system to verify software program operations during execution of a voice response system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.
